VOLUNTEERS' GUIDEBOOK 2018

NON-PROFIT SINCE 1972

WE ARE ROSKILDE FESTIVAL

WELCOME TO ROSKILDE FESTIVAL 2018

What you have in your hands right now is the Volunteers' Guidebook. This is your special guide to being a volunteer at Roskilde Festival. This is where you can find all the practical information you need to help yourself, your co-volunteers and our participants on their way. Make sure to bring it with you everywhere.

In the Volunteers' Guidebook, you can read about our special area for volunteers: Volunteers' Village, where you can hang out and have meetings in relaxed settings about the festival's focus on sustainability and about our non-profit profile. You can read about how you can contribute to a more sustainable festival by e.g. using public transportation, eating organic food and separating your waste. You also get a map of the camping areas and the festival area. Use it when you need to get around the festival or if you're asked for directions.

To get the full picture of the festival, you can read the whole guide from A to Z, but the Volunteers' Guidebook is also your reference book during the festival. The Volunteers' Guidebook is also accessible from the app under the menu-option 'Volunteers'.

DEAR VOLUNTEER

As a volunteer, you are an important part of the unique community that creates Roskilde Festival each year. We are about 31,000 volunteers, who have the desire and the energy to make sure that our metropolis thrives.

When checking-in at Roskilde Festival you also check in to Denmark's fourth largest city. A city that - when counting all volunteers, ticket holders, partners and artists - reaches a number higher than 130,000 inhabitants. A city beyond compare with any other city - or festival for that matter. A city that challenges and moves us with music, art, free space and community. Through your commitment, you and your co-volunteers are the heart of the city; what makes the city come to life.

FROM ALL OF YOU TO ALL OF YOU

We want you to feel good as a volunteer.
Therefore, you have access to the following:

- Volunteers' Village with Wi-Fi zone, free coffee, tea and lemonade including advantageous prices on other beverages and food. Here, you can find live music with current bands and DJs during the warm up days, a nice bar, and calm areas for relaxing or meetings. You can do morning yoga and have a foot rub, have your hair styled, a relaxing massage and much, much more.
- You can bring your own children to the festival free of charge, if the children are under the age of 10. Read more under "Access for children of volunteers".
- You can take the festival shuttle bus for volunteers. It runs from Roskilde Station to the Festival Area. The bus is free of charge as long as you're wearing your volunteer wristband or have a valid check-in card.

MANIFEST OF VOLUNTEERING

YOU ARE APPRECIATED
YOU ARE THE HEART AND SOUL
YOU WILL GET EXPERIENCE
YOU WILL MAKE YOUR MARK
WE ARE HERE FOR EACH OTHER

YOU ARE APPRECIATED

You are a part of a community where we meet one another at eye level and with respect for our differences. When we get together, we obtain knowledge about ourselves and each other. Some volunteer because of the community and music, and some because they simply want to learn new things. Whatever the reason, we want you to feel welcome and have a say about the general direction of the festival.

YOU ARE THE HEART AND SOUL

Roskilde Festival is a unique event, and your participation will help make the festival an unforgettable experience for others. It is because of you, and your personal commitment, that other people see and take part in the thrill of the festival. For that reason, as a volunteer, you are the key which make this festival special and memorable for everyone living in the festival city.

YOU WILL GET EXPERIENCE

You will have the opportunity to put yourself out there. You will also make new friends, and get a chance to expand your professional network. You might realize more about yourself, who you are, and what you are good at. You will get the possibility to learn, play, grow, evolve and develop yourself, and you will get new competencies and capabilities that you can take with you.

YOU WILL MAKE YOUR MARK

Our ambition is to contribute to a change of direction that ensures a more sustainable world in social, environmental and cultural aspects. You will be a co-creator of this change, and your contribution will be felt by the people you meet at the festival. In addition, the profits of the festival are donated to charities which mostly involve children and young people worldwide. You can make a difference!

WE ARE HERE FOR EACH OTHER

Every volunteer role is unique in the creation of Roskilde Festival and every contribution is equally important and indispensable. We will make sure you are well looked after and have the knowledge needed to perform the given task. It is important to us that you have a good experience when volunteering at Roskilde Festival, and hopefully would want to come back.

WE BELIEVE IN PEOPLE AND COMMUNITIES

A heartfelt welcome to Roskilde Festival - the temporary metropolis of 130,000 participants, volunteers and paying participants, artists, partners and the media. A festival of music, art, food and drink, of activism and waste sorting. Of stages, camping areas, with its many squares and fire access roads, city centres and new flushing toilets. Everything compiled in a free space and community that offers the unique feeling of freedom and opportunities.

Roskilde Festival is partying, beer and sun, summer and friends, flirting and awesome concerts. But it is also much more than that. At Roskilde Festival, we believe that music and art can change the world. We believe that a festival can trigger and enhance a movement of young people, who want more than just themselves and their nearest and dearest.

We are a community that inspires change and decision-making through art, music and active participation. Art can open us up to the world; make us imagine new things about the possibilities of tomorrow.

For eight days, Roskilde Festival is a metropolis that sets the frame for a great many creative communities and free spaces, where the good atmosphere and life changing experiences can unfold. It is a metropolis where art and music set the agenda, and where the meeting between people, attitudes, cultures and genres are at the centre.

However, Roskilde Festival is also a free space in which we, for a while, can free ourselves from the humdrum of everyday life and question and challenge the known and fixed habits. The free space offers us a special opportunity to rethink the way we live our lives. The chance to live in the world and

to dream ourselves into something other, which we can bring back to our everyday lives.

That is why, each year, we put special focus on current problems or social conditions, which we feel deserve special attention – and change. We ask the big questions.

For the third year running, we focus on equality, which is among the most important global conversations in 2018. This year, the theme has special focus on economic equality. It will be explored and will manifest all over the festival area through art, debates and attitudinal work under the headline Equality. We want to open the dialogue about how economic equality fits with the opportunities we have to act and enter into communities. That is why, with the participants, artists and partners, we will investigate what it means when equality is challenged or non-existent.

2018 is the year when we finish our three-year focus on Equality. Therefore, we're not only looking at economic equality; but will pick up the thread from previous years, where we focused on political and cultural equality respectively.

We believe that change for the community happens when people come together. Our ambition is to be part of creating that change.

The festival is a unique frame for life-changing experiences and a special eight-day free space. Here, we can be the best version of ourselves, be free from everyday life - party, have new inspiring experiences and meet new people. However, it's also a free space where we can question and challenge known settings.

The free space gives us a special opportunity to relate to the way we have arranged our lives and the world. That is why we focus on a current problem or social condition, which we think is deserving of special attention and change each year.

Thank you for taking part. Have a great festival.

Many festival greetings from Roskilde Festival's Executive Board,
Signe Lopdrup, Frederik Nemeth and Christina Bilde

ORANGE TOGETHER

We're in a festival city and a very special community, which shines bright enough to change the world. It has been like this from the very beginning and will remain this way as long as you treasure the community. That is why we have formulated three dogmas, which we hope you will keep in mind when walking about the festival.

Respect the free space

You're co-creating the unique orange feeling. It looks like a dream, but is reality and there is nothing like it in the world. Enjoy the freedom; forget the humdrum when you're at the festival.

Respect each other

You will meet people with other values and norms than your own. No matter whom you meet on your way, respect them and their boundaries.

Respect the environment

We're united in taking care of the world. Please leave the festival city as clean as you and your camp found it. Separate your trash and bring home your camping gear. If you don't, it ends up damaging the environment.

Let's be Orange Together!

Love, Roskilde Festival

ORGANISATION AND STRUCTURE

Roskilde Festival 2018 is festival number 48. It is one of the oldest and largest manifestations of music, art and community in the world. The first festival took place in 1971 - that year, it was called Sound Festival. Since 1972 - when the festival was called Fantasy - Roskilde Festival has been organised by Roskilde Festival Charity Society. We have been 100 per cent non-profit just as long. Below, you can learn about the organisation behind Roskilde Festival and read more about our donations.

Roskilde Festival Charity Society

The Roskilde Festival Charity Society hosts the event Roskilde Festival; made possible by about 31,000 volunteers and 80,000 participants' huge commitment and participation, every year. The charity society is 100 per cent non-profit and supports charitable initiatives within humanitarian, cultural and general charity work - especially for children and youths.

With these donations, Roskilde Festival Charity Society wants to support communities, help the marginalised, challenge and create an awareness of the society surrounding us. It stretches from the homeless in Denmark to refugees abroad, and also to organisations that, like Roskilde Festival, are based on the effort and commitment of volunteers.

Become a member!

If you want to become a member, you can read more on People - Roskilde Festival's portal for volunteers at Roskilde Festival. On People, you can also read more about the society's work, donations, activities and events throughout the year. If you have any ideas for or questions about the society please write to forening@roskilde-festival.dk.

NINE THINGS YOU NEED TO KNOW ABOUT ROSKILDE FESTIVAL 2018

You're volunteering at Roskilde Festival; and therefore, there are some things you need to know about our metropolis. This is to ensure that you can navigate the festival and that you can guide other participants if needed. Here, is a quick outline.

1 Roskilde Festival is Denmark's fourth largest city for a week, measured in population. We are more than 130,000 participants in this metropolis' community of which 31,000 volunteer for the festival.

2 The metropolis Roskilde Festival offers a completely unique combination of art, debate, architecture, food, music and much more. Come visit East City, West City and South City and take the temperature on the understanding of equality today; visit Dream City, where all the Dreamers have come together to create a special sustainable borough and have a taste of Art Zone, where art, food and attitude come together.

3 Roskilde Festival 2018 takes place over eight days from Saturday 30 June to Saturday 7 July. Our camping areas will open on Saturday 30 June at 16.00. The Inner Festival Area opens on Wednesday 4 July at 17.00.

4 Roskilde Festival has the following stages: Apollo, Arena, Avalon, Countdown, Gloria, Orange Stage, Pavilion and Rising. You can also experience scheduled content on Flokk and KlubRÅ.

5 In Volunteers' Village you can recharge your cell phone, have a free cup of coffee/water, listen to live music, do yoga and have a massage. You can also hang out with other volunteers or have meetings, have your hair done, drink a beer in Bar Rock, dance and much more.

6 Roskilde Festival is 100 per cent non-profit. That means that we donate all profits to cultural and charitable purposes. Since 1972, Roskilde Festival has donated more than 345 million Danish kroner to charity.

7

The focus on sustainability and recycling is an important part of Roskilde Festival. You will e.g. find Recycling Stations spread throughout the camping area that you can use day or night, and up to 90 per cent of all food bought at Roskilde Festival food stands is organic.

8

At Roskilde Festival, we treat each other with care, trust, tolerance and respect. As a volunteer, you're part of making sure that everyone takes care of each other, volunteers, paying participants and partners alike.

9

In case of an accident or emergency you must contact the emergency office at +45 70 120 112. We recommend that you save the phone number in your cell phone, so that you can always call for help should you need it.

NEW AT ROSKILDE FESTIVAL 2018

VOLUNTEERS' CAFÉ

This year, there are even more areas where you can relax and enjoy a refreshment between shifts. In addition to Volunteers' Village, this year you can enjoy your well-earned breaks in the new Volunteers' Cafés in West City, East City and Pavilion. Here, you can e.g. enjoy a free cup of coffee or lemonade before going out on new adventures.

The new Volunteers' Cafés ensure that all volunteers have a place to go between shifts. The location of the three areas means that you can relax close to where you're working.

SUSTAINABILITY IS BLOOMING

The goal of Roskilde Festival is to minimise the environmental imprint on the globe. This vision is expressed in several initiatives, old as new.

Roskilde Festival 2017 was the first year for the campaign Bring it Home, which encourages our participants to bring home their camping gear, so that it doesn't end up as environmentally damaging waste. The campaign returns in 2018 with a new initiative where campers have the option to have their gear brought to and from the festival for a small charge.

The green camping options Silent & Clean and Clean Out Loud will cover a larger area this year. Your camp will have a reserved spot, as participants in the two sustainable projects. In return, you commit yourself to participate in environmental activities. This year, the initiative Leave No Trace is welcomed into area B. The vision for the project is that you literally must not be able to see that people have lived in these areas.

The vision to create a more sustainable festival is also reflected in the food stands' menus, where the number of dishes without meat have gone up.

FOCUS ON BEHAVIOUR

We want to investigate and give words to how we treat each other with respect at Roskilde Festival. By including our participants, we want to look at what a good experience is and to learn about each other's boundaries.

As something new, all external organisations working with behaviour at Roskilde Festival are brought together and coordinated in a common effort. The collaboration involves a number of partners including DareGender, the Danish Family Planning Association (DFPA), the Danish Women's Society and Amnesty International, which will meet and involve participants with a card game that gives words to different behavioural dilemmas as a festivalgoer.

Remember that positive change begins with yourself. As a volunteer, you are an ambassador for Roskilde Festival's values and we expect that you behave responsibly and respect the free space.

THREE CITY CENTRES ON THE CAMPING AREA

In 2018 there are three city centres on the camping area: West City, East City and South City.

West City is a brand new area, which is located in the northern end of camping West. The area is partially framed by the corner of Darupvej. The area is also the new home for the Rising Stage, on which you can experience aspiring, musical newcomers just like in previous years. Also, West City has stands and sitting installations.

This year, East City presents several activities. Game, that presents all types of street sports, moves into the area. East City is also the centre for Roskilde Festival's attitudinal focus with the arrival of the project Flokkkr that presents talks, debates, workshops, performances and art.

South City, formerly known as Countdown City, is located close to Apollo. The area hasn't undergone as big changes as East City and West City have, but you will see a positive development of the South City communal area, in which you will find stands and creative installations.

EXPECTATIONS OF YOU

As a volunteer, you take part in creating our festival.

Therefore, we would like you to:

- Think about yourself as a co-creator of your own as well as everybody else's festival experience. Be the volunteer you want others to be.
- Treat everybody with tolerance and respect, and take part in making sure that other volunteers and festivalgoers do the same.
- Contribute to a safe and peaceful festival for everyone by always being the one who contributes with a solution instead of conflict.

When it comes to your actual assignments as a volunteer, we expect that you:

- Show up on time.
- Take responsibility. Acquaint yourself with your assignment thoroughly before your first shift. If in doubt, speak with your closest supervisor.
- Will not leave your shift before you're relieved. If it is busy, offer to stay a bit longer.
- Immediately let your supervisor know, if you will be late or will not be able to show up for your shift.
- Refer to the person in charge of the area, if you're asked a question you don't immediately know the answer to.
- Will help your co-volunteers, e.g. by showing your wristband when passing through a gate, opening your bag etc.
- Have not consumed or are intoxicated with alcohol or drugs while working.
- Help collect and separate trash and are conscious about reducing waste.

FIVE THINGS YOU CAN DO TO MAKE ROSKILDE FESTIVAL MORE SUSTAINABLE

- 1** **Bring home all your** camping gear from the festival.
- 2** **Separate your waste** and help others to use the Recycling Stations.
- 3** **Leave your car at home.** Take the bike to the festival instead, or use the free shuttle buses for volunteers.
- 4** **Try the vegetarian option and drink tap water** rather than mineral water from plastic bottles.
- 5** If you build anything, then make 100 per cent use of the building materials and **reuse them next year.**

The Roskilde Festival Environmental Group formulates the guiding principles. The Environmental Group consists of passionate volunteers specialising in e.g. energy, environment, waste, water etc. The job of the Environmental Group is to make an overview of the festival's environmental impact and expand the records with good, sustainable ideas and initiatives, and to hand out the annual Roskilde Festival environmental award.

PRACTICAL INFORMATION FOR VOLUNTEERS

In this section you will find information about special conditions for you as a volunteer. Among other things, read about where you can pick up your wristband, what you need to do in case of illness and where you can park – your car as well as your bicycle.

ARRIVAL AND ACCESS

Here, you can read about everything relating to wristbands and access to the different areas at Roskilde Festival.

Access through the gates

You must always show your volunteer wristband when passing through a gate. If you're driving through a gate, you must come to a complete stop and show your wristband.

Access for volunteers

All volunteers must wear a volunteer wristband.

- All volunteers must have their wristband handed out from Check-In - no matter for whom you're volunteering.
- Check-In is located in Building 6 at Roskilde Business College, Bakkesvinget 67, 4000 Roskilde. Look at the map for location.
- Your wristband will be handed out in Check-In by showing your Check-In card and picture ID.
- You can find your Check-In card in our database on People. You can find People via the address: www.people-vol.roskilde-festival.dk
- You must wear a valid wristband from Saturday 30 June at 08.00 to Wednesday 11 July at 09.00.
- The wristband gives you access to all open areas as well as restricted areas for those who need it to do their jobs.

Check-In opening hours

Opening hours apply to all volunteers at Roskilde Festival:

- Open all hours from Thursday 28 June at 12 noon to Saturday 7 July at 12 midnight.

Waiting areas Opening hours

If you're planning to stay in the camping area, the same rules apply to you as to paying festivalgoers. There will be three different waiting areas: West, East and South. In West, 3,000 spots will be reserved for volunteers from service unions, trade stands and collaborators and for volunteers working directly for Roskilde Festival. In East and South, 2,000 spots will be reserved for volunteers per area.

The waiting areas open on Friday 29 June at 17.00.

When you arrive at the waiting area everyone – paying festivalgoers as well as volunteers - will be handed a temporary wristband that gives you access to the specific waiting area. Paying festivalgoers will receive a temporary wristband when the entrance booking has been scanned. As a volunteer, you need to show your volunteer wristband after which you will receive a temporary wristband. Each waiting area has its own colour. That means that if you leave e.g. East you cannot enter the South area, as your wristband doesn't match.

Opening of the camping areas

The temporary wristband given to volunteers only has effect in the waiting area. When the camping area opens all volunteers can take off their waiting area wristband, as their volunteer wristband gives access to the areas in which they need to be.

As a volunteer at this year's Roskilde Festival, you don't need to buy entrance booking for a specific waiting area. You only need to show your volunteer wristband after which you will be allowed to enter. However, access for volunteers to the waiting area will close when the number of volunteers to an area reaches 3,000 in West and 2,000 in East and South. Experiences from previous years show that all the volunteers who want to can get a spot in one of the waiting areas.

The camping area opens on Saturday 30 June at 16.00.

Please notice that all other entrances, other than those to the waiting areas including the entrances from the city centres to the camping area, will open at 16.15.

No volunteers are allowed in the camping area without a vest during the opening.

Please be aware that it is only allowed to stay in the camping area on Saturday 30 June between 13.00-17.00 if you have valid business. In addition, you must wear an official Roskilde Festival vest of the colour suiting your work at the camping area.

The reason for this is that the participants should not see a lot of people moving about the camping area, as this can make them anxious and worried that another waiting area is already open. This in turn can make them tip over the fence – something we really want to avoid.

Storage of camping gear for volunteers during the opening

Volunteers can hand in their camping gear in the wardrobes on Saturday 30 June between 08.00-13.00. Access will not be possible after 13.00 until the opening of the camping area, and volunteers will therefore have to bring their gear into one of the waiting areas.

Opening of the Inner Festival Area

The inner part of the festival area opens on 4 July at 17.00. As a volunteer, you have the chance to welcome the paying festivalgoers to the Inner Festival Area (clap people in). If you want to be part of this fantastic tradition, you need to be in Volunteers' Village no later than 15.00. As the hour approaches 17.00, you and the other participating volunteers, will be taken to one of the three welcome areas from where you can celebrate that Roskilde Festival is yet again ready for four awesome days of music. The opening itself requires quite a lot of preparation, which is why some areas in and around the Inner Festival Area will be closed periodically leading up to the opening at 17.00.

- At 14.00 the Inner Festival Area will be cleared – follow directions given by Crowd Safety and Security.
- If you want to welcome people to the Inner Festival Area, you need to be in Volunteers' Village no later than 15.00.
- At 15.00 all gates to and from the Inner Festival Area is closed for passage by guests and volunteers.
 - If you're working on the area make sure to be there before 15.00.
- The official opening of the Inner Festival Area is at 17.00 after which time all gates to and from the Inner Festival Area will be open.

Access for children of volunteers

All volunteers are allowed to bring their children under the age of 10 to the festival free of charge. They must wear a wristband, which is handed out in Check-In. If your child is between the ages of 10 to 14, you can purchase a children's ticket at Check-In. The price is 350 DKK per child. The child can be

registered, the wristband can be paid for and put on, when the child is in company of a parent at Check-In. Remember to bring the child's yellow health insurance card to Check-In. Young people, from the age of 15, must buy a regular ticket in advance sale or from the box office at the entrance (if tickets are not sold out). Children of volunteers under the age of 15 must always be in the company of an adult.

Helper wristbands

People, who need to enter the area during the construction and dismantling periods, but not during the festival, will be given a helper wristband. The wristband grants access from Saturday 30 June at 08.00 to Wednesday 4 July at 16.00 and again from Sunday 8 July at 04.00 to Wednesday 11 July at 09.00. Your supervisor will allocate helper wristbands.

Change of wristband

Take good care of your wristband. It gives you access to the festival. Replacement of severed, worn or nearly broken volunteer wristbands is made in Check-In at Roskilde Business College, building 6. Remember to bring picture ID. Please contact your supervisor, if you have lost your wristband. You should also be aware that everyone, including children, must wear a valid wristband.

Illegal sale of volunteer wristbands

Please note, that subject to Danish law, it is not allowed to re-sell tickets at a higher price than its face value. Therefore, it is not allowed either, to re-sell one's Roskilde Festival volunteer wristband, as this is given without charge and is thereby without value. In most cases, a wristband is a prerequisite for your ability to perform your volunteer work during the festival, and must not be mistaken for salary.

Photo: Vegard S. Kristiansen

ILLNESS AND NON-APPEARANCE

If you're ill or in any other way prevented from working, you must contact your supervisor.

Non-appearance from shifts

If you fail to turn up for one or more of your shifts without a valid reason or without previous agreement with you supervisor your wristband will be cut and you will be charged a fee of 3,500 DKK. You will also be banned as a volunteer at Roskilde Festival for the next three years.

Be especially aware in congested areas, such as Volunteers' Village. Never drive on the grass if at all avoidable. It is never allowed to operate work vehicles, trucks and other vehicles without a valid license. It is not allowed to transport people in work vehicles, if they're not made to carry passengers. Therefore, never sit on an open truck bed or other open vehicles.

Area set-up

Volunteer Camping Darup Idrætscenter is set up to make sure, that volunteers have a place to sleep before and after their shifts, so people staying here must be quiet. Therefore, it is not allowed to have parties, play loud music or in any other way show disruptive behaviour. It is not allowed to put up pavilions, tents with a common room or to bring building materials, furniture etc. Volunteer Camping Darup Idrætscenter must have room for everybody. Please follow the instructions and any suggestions given by the area's service guards.

Show consideration

The rest of the year, the area is a playing field that we're allowed to borrow during the festival. Show consideration to the people who usually use the football fields by taking care of the areas and making sure to take everything with you when you leave. Especially, remember the tent pegs as they cause nasty injuries if left behind in the grass. Obviously, it isn't allowed to dig holes in the football fields.

Help keep Volunteer Camping clean

Everyone is encouraged to help each other keeping the area clean. All trash must be put in the available trashcans or containers to avoid extra expenses for clean up and other things. Please remember to clear up after yourself when you leave the area. Make use of the area's containers if you don't want to take your tent or sleeping bag home with you.

Shower conditions

Hot showers are available at the area. The hot showers can be found in the sports centre's main building, where it is also possible to buy food and beverages.

THE FESTIVAL AS A WORKING AREA

Remember that the Inner Festival Area is a working area. When Roskilde Festival opens its gates to the inner part of the festival area on Wednesday 4 July, thousands of volunteers have built and established many stages and installations benefitting all festival participants.

There is great interest among volunteers to follow the construction of the area, which is why recent years, have shown a growing number of "leisure guests" on the Inner Festival Area during the construction period. However, we must remind everyone that the area is a work area during the building period, meaning that even if you're a volunteer you must have a purpose to move through the area. Of course, you can go to the burger bar Skiburger or the like, but make sure to walk on the asphalt roads and make way for vehicles and machines, if you meet them on your way.

Opening hours at the Inner Festival Area

The Inner Festival Area is closed at night giving festival volunteers a chance to clear-up. The area closes when the last concert has ended and will open again at 10 in the morning. However, gates will be manned day and night. Service guards at the gates have been instructed to show good judgement so that volunteers and festivalgoers aren't sent on unreasonably long hikes, but to limit the access to the Inner Festival Area. Please respect that the area is closed in order to clear-up and maintain the area.

YOUR SAFETY – WORK INJURIES AND INSURANCE

All volunteers are covered by the mandatory industrial injury insurance provided by Roskilde Festival. If a work injury occurs, you must first report the incident the same way you would any other accident or incident. As soon as the work injury is under control your supervisor must contact the Work Environment Team at **+45 30 38 95 55**.

The Work Environment Team must be contacted in all cases of injuries in which the volunteer can no longer perform his or her job as planned. The Work Environment Team will look further into the accident with the relevant supervisor to avoid it happening again. Note, that you can contact the Work Environment Team with questions about the planning of your work, prevention of work injuries or about general work environment conditions.

Your supervisor is responsible for reporting the work injury to the insurance with Roskilde Festival by filling out the form "Skema til anmeldelse af

arbejdsulykke (form for reporting a work injury - In Danish only). You can find the form at People Pro and People Vol. The report must be made no later 15 July by sending it to Roskilde Festival, Havsteensvej 11, 4000 Roskilde or to ida.nielsen@roskilde-festival.dk

WASTE

One of Roskilde Festival's favourite causes is to take care of the environment and to think tomorrow's festival into the sustainable initiatives we make today. As a volunteer, you play an important role by contributing to more waste being separated and handed in correctly. Keep an eye out for the waste separating logo, which is the Waste group's official logo.

What can you do as a volunteer?

- Never throw your own trash on the ground. Be a good example and use the trashcans
- If you see a trashcan lying on the ground – set it upright again.
- Large waste such as camping chairs or tents must be placed on the ground next to the nearest trashcans. If you see large waste or chairs lying on the road or paths, pick it up and put it at the nearest trashcan.

ROSKILDE FESTIVAL IS CASH FREE

This year, it will not be possible to pay with cash at Roskilde Festival. That means that you can no longer pay with cash in the sales stands. It will not be possible either to put money into a Cash Card as you could in 2017.

If you have a Cash Card or a Refund Card from 2017, you can still use it in all sales stands and you can still have your credit balance transferred to your debit/credit card or paid out in cash. If you hand in empty cups or the like in a refund stand, the refund will be paid into a Refund Card or to your credit card e.g. Dankort. You can use your Refund Card when paying for food and beverages etc. in all stands; and you can have your Refund Card balance paid out in cash from the Refund Payout Station located in Area L.

RFHEROES – WE'RE LOOKING FOR GENUINE FESTIVAL HEROES

Roskilde Festival and Tuborgfondet (the Tuborg Foundation) celebrate community and volunteering – and you're part of it. We elect RFheroes on a daily basis (groups as well as individuals) that have done something extraordinary for the community at Roskilde Festival. If you know of any festival heroes – this could be anyone at the festival, volunteers as well as paying participants – who deserve a tribute to their heroic act, please nominate them through our channels.

You can do this in three ways:

- 1) send an email to rfheroes@roskilde-festival.dk
- 2) post on Instagram using the hashtag #rfheroes, or
- 3) send a snap – we're called 'roskildefest' on Snapchat.

Remember to include your phone number so that we can reach you.

At the end of the festival, we elect five RFheroes who will have their names immortalised on brass plates, which are inset into the ground in front of Orange Stage

The heroes' tribute is celebrated on Orange Stage on Saturday 7 July.

FESTIVALGOERS AND SAFETY

– WHAT IS YOUR ROLE?

As a volunteer at Roskilde Festival, you're an important piece in the creation of a safe and secure Roskilde Festival. Therefore, it is important that you know about the security organisation, and what role you will play should anything happen. It is also important that you treat everybody with trust, tolerance, care and respect, and take part in ensuring that other volunteers and festival-goers do the same.

ORGANISATION AND MANAGEMENT – OPERATIONS MANAGER

In order to ensure that we can act in a correct and timely manner in case of an incident, there are some important roles in the organisation you need to know about. Below you can read short descriptions of the different responsible functions in the safety organisation. Announcements and demands from these people must always be followed.

Avviklingsleder (Operations Manager): Represents Roskilde Festival's top management and has the authority to make decisions deemed appropriate and necessary. The operations manager on duty can be found at the Emergency Office. The operations manager's announcements and demands must be followed. If necessary, an Operations Manager can be dispatched to the Inner Festival Area.

Safety Officer: A Safety Officer is on call in each area all day, every day during the entire festival. The Safety Officer's role is to ensure that the festival is held as described to the authorities, and that safety is justifiable at all times. A Safety Officer must ensure optimal cross-disciplinary collaboration at the festival area in relation to other areas and the Readiness and Emergency Office. Safety Officers must ensure that information about incidents, known challenges and other information is shared continuously.

Safety Manager: There are three functions within Safety Managers. In smaller areas or during quiet periods these functions can be merged. However, it will always be clear who is in charge of the different areas.

- Front Stage Safety Manager • Back Stage Safety Manager
- Field Safety Manager

Safety Supervisor: There are Safety Supervisors in several areas. It is the job of the Safety Supervisor to act as radio carrying supervisor and to ensure

the coordination of the Safety Managers' guidelines in a safe and secure manner. Supervisor is in direct radio contact with the safety organisation for the area in question.

READINESS AND EMERGENCY OFFICE

Roskilde Festival's emergency readiness is coordinated from the Emergency Office, which is open from **Friday 29 June from 08.00 to Sunday 8 July at 23.00**. Primary contact with the Readiness and Emergency Office must take place over the radio. It is important that communication be made over the radio first, as everyone in the room can listen when it is important. Communication over the radio is recorded; telephone calls are not. The recordings are important in case of a large accident.

You can contact the Emergency Office via telephone: +45 70 120 112. We recommend that you save the phone number in your cell phone, so that you always have it on you and can call for help should you need it.

The Security Office can be contacted on **+45 46 340 710**. They are responsible for the day-to-day safety.

If a volunteer is injured outside of the Emergency Office opening hours and is in need of an ambulance you must call 112 (Danish emergency services).

WHAT THE COLOURS OF THE VESTS MEAN

Several of the festival's volunteers can be recognised by their coloured vests. In 2018, we have the following colours:

	Orange	Service guards, gates, parking, and Crowd Safety guards
	Yellow	Safety Managers
	Yellow/Green	Technical Crew
	White	Social Workers or Operations Managers
	Beige	Security
	Green	Doctors and nurses
	Turquoise	Bar Managers, beverages and trade inspection
	Red	Life guards
	Bright green	REACT – Waste management at camping
	Purple/Lilac	Press (Media printed on the vest)

ITEMS NOT ALLOWED TO BRING TO THE FESTIVAL'S DIFFERENT AREAS

For the sake of participants' safety, there are some items that aren't allowed to bring to the festival's different areas. To ensure that this is followed the person responsible for the individual gate can introduce a search of the festivalgoers' belongings. Festivalgoers must follow this request to search if they want to enter the area.

Below is a list of items not allowed to bring to the different areas:

THROUGH THE OUTER GATES (access to camping areas)

- Bags and the like with refund
- Building materials and tools (without previous permission)
- Furniture and the like (except standard foldable light-weight camping furniture)
- Clothing or other things with markings showing gang or biker affiliation
- Items resembling weapons (including realistic-looking toy weapons)
- Generators
- Pyrotechnics
- Drones (without previous permission from the festival safety organisation)
- Spray paint and permanent markers
- Fuel (except Trangia 1L Fuel Bottles)

THROUGH INNER GATES (ACCESS TO THE INNER FESTIVAL AREA)

The above items and

- Banners and flags

SOCIAL WORKERS – THE OUTREACH TEAM

You can contact a social worker from The Outreach Team if you, as a volunteer, or a paying festivalgoer have been exposed to a violent incident or crisis. This team, also called DOT, manage Roskilde Festival's psychological readiness. This includes e.g. that a team, wearing white vests with SOCIAL WORKER written on them, walk around the festival doing outreach and preventative work among Roskilde Festival's younger participants.

The team is typically a mix of pedagogues, street-based workers, substance abuse advisors, social workers, medical students, nurses, psychologists and the like. They can help where their particular expertise is needed. Call for help either by way of your supervisor or by calling the Emergency Office.

FIRST AIDERS

First aiders are located on the camping area in City Centre East and West. They are open at all hours from Friday 29 June at 16.00 to Sunday 8 July at 12.00.

An additional first aid tent is located west of Orange Stage, which is manned from Wednesday 4 July at 17.00 to Sunday 8 July at 05.00. If you are injured, or you see someone else who is injured, you must contact the first aiders for help. If the injured person cannot walk, please send for help by calling the Emergency Office at **+45 70 120 112**.

In case of injury, you must:

- Send for help through your supervisor or the Emergency Office by calling **+45 70 120 112**
- Send for your supervisor
- Create an overview, assess the situation and stop the accident
- Give first aid and crisis counselling if needed
- Cordon off the area
- Stay with the patient until help arrives

NORMALCY

Always look for normalcy in your surroundings. This applies to everything from how people move, objects/vehicles left behind or structures in heavy use.

What to do if you experience anything out of the normal:

- Inform your supervisor
- Stay on the scene or by the person
- If possible, write down your observations

Always react, if you see objects, that seem to have been hidden or if anything is clearly wrong.

VIOLENCE

In case of violence, your own safety always comes first, then the safety of your co-workers and finally that of the festivalgoers. You're expected to act, but not to put yourself at risk.

The police demand that those maintaining the peace at the festival must be validated or sent by a security company. That is why Roskilde Festival collaborates with a security company, which provides our security teams. Our security teams are qualified in conflict resolution and are sent for when service guards or crowd safety volunteers need extra support. The security teams act on orders from the Emergency Office and have the authority to exclude festivalgoers and volunteers on agreement with the festival's Operations Manager.

In case of violence, you must follow the steps below:

- Step back
- Assess the situation and the level of danger
- Call for help either by way of your supervisor or by calling the Emergency Office: **+45 70 120 112**
- Assess your options for resolving the conflict with positive communication
- Carry out the chosen solution

It might be a good idea to write down a description of the person or persons who were involved in the incidence, so that you can pass it on to your supervisor or Security when they arrive.

A description should contain:

- In general: gender, age, build
- Appearance: colour of skin, hair and eyes, type of beard, any other distinguishing marks
- Clothing: shoes, trousers, overcoat

Remember to look for any characteristics that are easily recognised.

THEFT

If you see someone in the progress of stealing or acting suspiciously, it is important that you notify the police. If you have been robbed, or you speak with someone who wishes to report a theft, a report must be made online at www.politi.dk

Always remember to lock your tent and in general look after your personal belongings. If you see anyone, who has not locked their tent or who e.g. has their wallet or cell phone in a very exterior place, remind them to look after their belongings.

What to do, if you witness a theft:

- Send for help either by way of your supervisor or by calling the Emergency Office: **+45 70 120 112**
- Observe the person from a distance
- Wait until help arrives

FIRE

Roskilde Festival is collaborating with The Eastern Zealand Readiness Office that will be present during the festival. You play a crucial role in the quick response, so make sure that you know where to find fire-fighting equipment in the area where you're working.

In case of fire, you must follow the steps below:

- Send for help either by way of your supervisor or by calling the Emergency Office: **+45 70 120 112**
- If possible put out the fire
- Cordon off the area
- Meet the fire department
- Follow the evacuation instructions or your supervisor's directions.

RESTRICTED WORK AREAS AND WORKING ENVIRONMENT

In some areas, like the stage areas, access is only granted to those wearing the necessary safety equipment, such as helmet and safety shoes. You must respect barriers and are not allowed in these areas without the necessary safety equipment and a legitimate business. If you volunteer in noisy surroundings, like the bars at the stages, you must wear earmuffs when on duty.

SAFETY AT CONCERTS

When many people attend a concert, it is important to look out for each other. There are many different traditions among the audience at big concerts. Traditions that may seem violent and intense to people not in the know, but fun and a part of the experience to those familiar with them. Remember, that Crowd Safety staff wearing orange vests is there to help if needed.

On several stages, the big screens are used to give information to the audience during the concerts. It is important to follow directions given on the screens. Writing on the screens is controlled by the stage Safety Manager, who has an overview of the situation in front of the stage. Remember that crowd surfing is not allowed at Roskilde Festival and can lead to expulsion – even for volunteers.

In the guidebook, handed out to all festivalgoers, the music programme will show the level of activity expected at individual concerts. If a concert is marked with the High Energy icon, you can expect a high level of activity in front of the stage.

Mind your ears

Make sure to wear earplugs or earmuffs when you're working in a particularly noisy area. The same applies when you're out enjoying the festival as a participant. A ringing or buzzing sound in your ears is a warning sign that you need to be more mindful of your ears.

PIT SYSTEMS AT ORANGE AND ARENA

In front of the festival's two largest stages special audience enclosures have been set up – they're known as pits. They will create the best possible conditions for participants who chose to experience the concerts up-close.

A light signal at the entrance will show if it is open. Green light means that people can access the area, red light means that the pit is at capacity or not yet open. Entrances are located at either side of the pit. When the area has been emptied and cleaned from the previous concert, a lock is opened through which people can pass to wait for the next concert.

THE OFFICIAL ROSKILDE FESTIVAL GUIDE

There is a Flextrafik (Demand responsive transport) stop at Gate 16, Darupvej, by the taxi rank.

INNER FESTIVAL AREA

The Inner Festival Area opens on Wednesday 4 July at 17.00. The area is home to the majority of the stages, KlubRÅ and Art Zone.

STAGES

Roskilde Festival has the following stages: Apollo, Arena, Avalon, Countdown, Gloria, Orange Stage, Pavilion and Rising. Find on the map where the stages are located.

Apollo

Apollo is Roskilde Festival's stage for electronic and urban music in various forms. Enjoy parties in front of the stage and space for hanging out all day long. Apollo is open from Wednesday 4 July to Saturday 7 July.

Arena

Arena is Roskilde Festival's concert hall, which gives festivalgoers the intimate concert experience and the sense of being part of a bigger community. Outside of Arena's tent, you can enjoy a refreshment in the calm surroundings of Arena Park. Bands will play Roskilde Festival's largest indoor stage from Wednesday 4 July to Saturday 7 July.

Avalon

At Avalon, all music genres can be found and the stage hosts both big concerts and intimate experiences. Delicious food, cocktails, cold beers and bubbly champagne in a garden atmosphere can be found in the area surrounding Avalon. The stage is open from Wednesday 4 July to Saturday 7 July.

Countdown

Countdown is one of our two music stages in the camping area, where you can experience music from Sunday 1 July to Tuesday 3 July. The stage is a platform for up-and-coming stars on the Nordic music scene for electronic and urban music in the wider sense. Find the stage in South City, and when the Inner Festival Area opens, the stage is transformed into a gate.

Gloria

As the smallest stage at Roskilde Festival, Gloria gives audiences intimate, artistic experiences. The foyer is converted to a total art installation again this year. This year, Gloria will become a platform for the art programme with a performance concert and an audio-visual performance, taking place on the stage. Gloria is open from Wednesday 4 July to Saturday 7 July.

Orange Stage

Orange Stage is Roskilde Festival's main stage and centre of the great communities. Throughout the years, the world's biggest stars and living legends have

taken the stage. The iconic orange canvas is the festival's logo. Bands will play Orange Stage from Wednesday 4 July to Saturday 7 July.

Pavilion

At Pavilion, everything is scaled down to the very basics. The stage feels like an intimate rock club. You can hang out in the area surrounding the stage at Berlin-style long tables by the glow of string lights. Bands will play on Pavilion from Wednesday 4 July to Saturday 7 July.

Rising

Rising is the second of our music stages in the camping area, where you can experience up-and-coming bands from Sunday 1 July to Tuesday 3 July. You will find the stage in West City.

ARTS & ACTIVISM

Art Zone

Art Zone is Roskilde Festival's epicentre for art. You're invited into a room, which is tailor-made to involve, enrich and challenge. Common to the art is the collective theme, which explores technology's part in relation to man and puts focus on the world's economic conditions. The Gloria foyer is converted into an art installation where jello shots are served and a strange testing room will take place. This year, Ovalen (the Oval) will be a park of sculptures, which will surprise the senses, while the stables act as the new experiential room with KlubRÅ. It's all tied together in a very artistic programme and exhibition design that lets you explore the jungle.

KlubRÅ

KlubRÅ is a cross-disciplinary project carried out in collaboration with Tuborg, which first saw the light of day in 2017. Combining music and art, it presents experiences you cannot find anywhere else on the festival. KlubRÅ is a joining of the past 3 years' Equality themes, and like the rest of the art programme, it highlights the fear of the unknown.

Flokkr

In 2017 Flokkr, created by the British design collective Public Works, acted as a gathering place where festivalgoers were involved in the activities. This year, the project will continue to be a hub for talks, debates, workshops, performances and art. Find the programme for Flokkr in the schedule.

MEMORIAL

Out of respect for the nine young men who died on 30 June 2000 at Roskilde

Festival and their families, the festival established a memorial in 2001 on the western edge of the audience area in front of Orange Stage. The place is there in remembrance and to remember "how fragile we are". Lars Skov Nielsen designed the sculpture on the spot.

ARTIST CHECK-IN

Artist Check-In is located at Gate 16 and ensures access for all artists performing at Roskilde Festival along with their crew.

ARTIST VILLAGE

Artist Village is an area for all artists performing at the festival, bands and non-musical artists alike. The area holds facilities ensuring the best preparation for the artists' performance, so that they can give the audience a great experience. The artist is driven to the stage immediately before the performance and back as soon as it ends. Artist Village is located east of Orange Stage and is a restricted area reserved for artists.

BACKSTAGE VILLAGE

You can find Backstage Village in the northern part of the Inner Festival Area, just east of Orange Stage and Artist Village. Since Backstage Village is a working area and meeting place for the press, music industry and collaborators, you need a special wristband to gain access to the area. Editorial teams from Danish and international media are mainly staying in the western part of the area, and collaborators are mainly located in the eastern part. In Backstage Village, the festival has collected a number of service facilities for the press and music industry, and parts of the festival administration and management can also be found here.

BACKSTAGE LOUNGE

Backstage Lounge is located in the northeastern part of Backstage Village. The lounge is reserved for collaborators and guests of Roskilde Festival. Our collaborators use part of the Backstage Lounge during their visit to the festival. Small meetings of the professional and the social kind are also held here.

BACKSTAGE HOSPITALITY

Backstage Hospitality is located in the northeastern part of Backstage Village. Network meetings and workshops for guests with an individual agreement with Roskilde Festival are held here.

CAMPING

You may camp on the entire camping area, East and West, and on special areas such as Get A Tent, Get A Place, Get A Camp, Caravan Camping, MC Camping and Sleep-in Buses (see map). The different camping areas are divided into squares with a letter and a number. The letter refers to the Agora to which the camping square belongs.

CITY-CENTRES

The festival's commercial streets and trade squares are located in the three largest cities: South City, East city and West City. Here, you'll find stages, music and interesting activities. You will also find various services, an Agora, sale of merchandise, first aiders, beer stands, a refund stand and food stands. Selected stands are open all hours from Saturday 30 June at 16.00 to Sunday 8 July at 04.00.

East City

New things are happening in East City again this year. Game activities, which include street sports of all kinds, and Flokk, which is the focal point for the attitudinal work, will both move to the area – making East City the place to go if you want to get involved in workshops, debates and keynote speaks. This is also where you can get your heart rate up with a game of basket, pétanque, street soccer or volleyball. If you want to quench your thirst, fill your stomach or rest your legs, East City is also the place to go.

South City

South City is home to the Countdown Stage. During the days before the opening of the Inner Festival Area, the Countdown Stage features everything from low-key concerts that invite you to hang out on the grass, to big parties that continue until the early hours. When the Inner Festival Area opens, the stage is transformed into a gate. South City is bound together by a multitude of stalls and creative sitting installations, which gather festivalgoers in conscious and unconscious communities.

West City

West City is a new area in the northern part of Camping West. The area is home to the Rising Stage where you can experience the music of up-and-coming artists during the days before the opening of the Inner Festival Area. West City features stalls and new sitting installations, and there is a continuous focus on encouraging festivalgoers to be conscious of the environment and our surroundings.

AGORAS

There is a meeting point in each Agora. The meeting points are named after the Agora in which they're located. As an example, meeting point C is in Agora C. In case of rain, you can seek shelter by the meeting points. There are also facilities for cooking your own food.

FIRE ACCESS ROADS AND CAMPING AREAS

There is no standard when it comes to the distance between tents. Camping guards are allowed to ask festivalgoers to move their tents, if they are placed inconveniently and outside of the marked area or square. The distance between caravans must be 3 meters. A service guard will help with the placement of caravans. All fire access roads in the camping area as well as on the caravan area must be completely free of belongings and equipment, in order for the fire brigade to be able to drive through without interruptions. A fire access road must be at least 5 meters wide, but in some areas, a wider road may be necessary.

EQUIPMENT AT THE CAMPING AREA

For the sake of the festivalgoers' safety, not all equipment is allowed in the camping areas. See the section "Items not allowed to bring to the festival's different areas" for a detailed list.

You're allowed to bring the following to the camping area:

- Ordinary lightweight camping furniture
- Folding tables
- Small beach- and folding chairs
- Sleeping mats and foam mattresses
- Pavilions (a good rule of thumb is one pavilion per 16 festivalgoers to a camp).

A good rule of thumb is that you have to be able to carry the things you bring yourself.

OPEN FIRE AT THE CAMPING AREA

For safety reasons, open fire is not allowed in the camping areas. This includes bonfire, torches, garden candles, candles, hurricane lanterns, primus stoves and grills.

By the Agoras, you will find an area designated for the use of primus stoves, disposable grills, communal grills or communal bonfires. All cooking using heating must take place at the Agoras' bonfires and cooking islands.

WASTE

Festivalgoers are motivated by Roskilde Festival's more than 200 waste collectors at camping to clean up on a daily basis, use the Recycling Stations and bring their things home with them when the festival ends. Waste teams drive around in flatbed trucks during the day, handing out waste bags and make waste parades while encouraging festivalgoers to clean-up and separating their waste. It is important that you, as part of a community, are part of motivating everyone to make an active choice to clean-up and sort the waste and to make people aware of the trashcans and the Recycling Stations. This year, there are 7 Recycling Stations at the camping area, which are marked on the festival map.

DELIVERY SERVICE WITH BRING

The campaign Bring it Home encourage festivalgoers to bring their camping gear home with them, since it will end up as environmentally harmful waste if they don't. As part of the initiative, Roskilde Festival offers all volunteers and festivalgoers to have their festival gear sent to and from the festival area in collaboration with the transport company Bring for a fee. During the week, it will also be possible to have packages sent with what you might need from home. When you send your equipment, you need to choose where to hand in your belongings and where on the festival area you want to collect your package.

Two collection sites will be established in connection with the wardrobes in N and E in East and West City, with the following opening hours:

- 24 hours a day from Saturday 30 June at 15.00 to Monday 2 July at 19.00
- From Tuesday 3 July to Saturday 7 July opening hours are from 08.00 to 19.00
- Sunday 8 July opening hours are from 09.00 to 13.00

At www.bring.dk/roskilde you can read more or begin your order and find out where to hand in your belongings, and where you want to collect them.

SPECIAL CAMPING AREAS

There are many types of special camping choices at the Outer Area. At Special Camping Central East and Southeast you can buy a spot in Get A Tent with a pre-pitched tent for two or four people. With Get A Camp, you buy either four or eight two-person tents, including a pavilion, and that way get a ready-made camp that you can move into right away.

This year, we also introduce Bedouin Tents, which is a big round tent with room for four people, with cots made up prior to arrival, as well as Tent Lodges, a two-person unit with beds, duvets, nightstands and lamps. If you want to bring your own tents and ensure room for a bigger camp, Get A Place is the solution, where a 100 m² square is reserved for two days for pitching the tent. This year, the Caravan area has been expanded to cover both West and East, where Sleep-in Buses and MC Camp are part of Caravan East.

OVERVIEW OF SPECIAL CAMPING AREAS

Note that areas B, C, E, H, J, K, M, N, P, Q and Caravan East + West are Clean-areas.

CLEAN OUT LOUD

Clean Out Loud (COL) covers the southern part of Area C and the entire expanded Area E. COL is a collaboration between Vallekilde Højskole (Vallekilde Folk High School) and Roskilde Festival Højskole (Roskilde Festival Folk High School). For a couple of years they have focused on changing the waste culture at the camping area through community, waste parades and creative events. Before Roskilde Festival, anyone can apply to be part of COL and consequently book a reserved spot in the area. In return, they must take an active part in the COL community, and contribute to the area's activities and leave a clean camping spot when they go home from the festival.

LEAVE NO TRACE

The new sustainable area Leave No Trace (LNT) is in Area B. LNT is a sister-area to COL, which focuses on making the camping area more sustainable. Everyone can apply before the festival to reserve a spot in the area by contributing with events and workshops within the three focus areas: energy, nourishment and upcycling. In the area's Forum installation, the camps hold a number of workshops for each other and other festivalgoers about how to hack your camp to make it more sustainable.

SILENT & CLEAN

Silent & Clean near Agora J in Camping East is for festivalgoers who want a more quiet and pleasant atmosphere, where the area is kept clean by the festivalgoers and where there are no noisy parties or loud music at all hours. The area is supervised, and everyone is encouraged to help each other keep the area clean and a pleasant place to stay. In Silent & Clean, music is not allowed in the hours between 22.00 and 10.00.

DREAM CITY

Dream City is a community in Area H where Roskilde Festival's festivalgoers get the opportunity to challenge the boundaries for sustainable festival participation. It's the city for co-creation and community, where the will to improve your own and others' festival experience is a passionate goal. The 'dreamers' in Dream City begin planning and building about 100 days before the festival. Sustainability is included from the get-go, and we want to develop a unique, strong and diverse community that is open for everyone.

AREA N

The western part of Area N is reserved for international festivalgoers that arrive by communal transport and from Road Trips. The idea behind this area is to give international festivalgoers, who might even be first time visitors, a little extra attention and the sense of community. Area N is a Clean-area where the guests help each other keeping the area as clean as when they arrived.

SETTLE'N SHARE

Settle'n Share is located at the top end of Area P. All squares have an overall theme, and within this one, every camp must contribute with an activity benefiting other participants and the community. The area is created in collaboration with Roskilde Festival Højskole, and you can feel the folk high school spirit by participating in morning assembly and more. Activities in the area will take place throughout the festival and are open to everyone. Interested participants must apply to become part of Settle'n Share and it will then be decided who will be offered a spot in the initiative.

GET A TENT SOUTHEAST

Get A Tent Southeast is the newest addition to the Special Camping areas. It was created to accommodate the great demand for this popular camping experience. As with the other Get A Tent areas, the tents are pre-pitched and ready when participants arrive, and they can take the tents home after the festival.

DISABILITY SERVICE

It is our goal that festivalgoers and volunteers with disabilities have the best possible conditions at Roskilde Festival - equal to everybody else.

Joint symbol

We use a joint symbol to mark everything that is of particular interest to people with disabilities: toilets, entrances, platforms, information, etc. Keep an eye out for the symbol - on the webpage, in the information material and at the Inner Festival Area.

Remember

Speak directly to people with disabilities, not to their friend or companion. Speak normally, as one adult person to another. Be ready to help, but don't help without asking first.

MAP FOR PEOPLE WITH DISABILITIES

The Roskilde Festival app has a map specifically for people with disabilities. It shows where to find the camping area for the disabled (HandiCamp), accessible parking, toilets, platforms and more.

COMPANION

If you have a Danish companion card, you can buy a special ticket granting access for a festivalgoer or volunteer with disabilities and a companion.

The companion gets the same wristband as the disabled person.

Contact handicapservice@roskilde-festival.dk

ACCESS AND SPECIAL NEEDS

Festivalgoers with disabilities and their companions receive regular festival wristbands and as a starting point do not have access to Volunteers' Village.

Anyone with one or more special needs is welcome to contact handicapservice@roskilde-festival.dk. This might be the need for passage through closed areas, access to toilets or to bring special needs aids. We can then hand out a letter, to be shown to guards etc. and in that way document the needs. It is our hope and expectation that everyone will respect these letters. In cases of doubt, Handicap Service can be contacted.

ACCESSIBLE TOILETS

Accessible toilets can be found throughout the festival area, not only in HandiCamp (see map). The key to the accessible toilets is handed out from Handicap Service. Any problem with the accessible toilets must be reported to the Area Services Office.

ACCESSIBLE PLATFORMS BY THE STAGES

There are accessible platforms for people with disabilities by Orange Stage, Arena, Avalon and Pavilion. People with various needs, not only wheelchair users, can use the platforms.

HANDICAMP

The camp for disabled people, HandiCamp, is located in Area HC, north of West City, and it has very nice facilities for people with disabilities: accessible toilets and a trailer with shower and interior lift, and guards who are ready to lend a helping hand. There is room for a few caravans for those who cannot stay in a tent. It is possible to supply one's own tent or car with electricity, and there is a tent for charging of wheelchairs etc.

SERVICES & OFFERS

Where can I rent a refrigerator, charge my phone, take a shower or do my laundry? The questions are numerous, and you can find the answers here.

PHARMACY

The pharmacy is located in East City by the first aid tent until Wednesday 4 July. When the Inner Festival Area opens on Wednesday 4 July at 17.00, the pharmacy will be located by the first aid tent west of Orange Stage. At the pharmacy, you can buy the most common over-the-counter medication, sun lotion, earplugs and condoms, and you can also hand in your prescription here.

- During concerts, stage guards will be handing out water in front of the stage as part of our audience service.
- Remember to drink plenty of water, especially on sunny days.

LoveSpring

This year, Roskilde Festival is again collaborating with the LoveSpring Foundation, and the profits from the sale of bottles will help humanitarian well projects in developing countries. This means that spread out across the festival area you can find LoveSpring stands where you can buy a drinking bottle for 25 DKK and always get a refill of tap water for free.

LAUNDRY SERVICE

In the laundry service in West City, you can have your clothes washed and dried. One load equals 5 kg including drying and wrapping of the clothes in a bag. The price is 80 DKK. The price for washing of aprons, cloths and t-shirts for unions is 90 DKK.

FOOD & BEVERAGES

Roskilde Festival puts great emphasis on the fact that there is a large selection of high quality food and beverages, which at the same time adds to our values as a sustainable and environmentally conscious festival. Read more about the festival food and beverages here.

At the festival, you can find food and beverages catering to any taste, appetite and wallet. Many unions and organisations run food stands, and profits thus go to non-profit purposes. Professional restaurant owners, who also contribute financially to the festival's non-profit donations, run other stands. As a minimum, all food is 90 per cent organic, which is also true of most of the beverages. The Danish Veterinary and Food Administration control the hygiene in the stands. They all have self-inspection programmes and are guided to good hygiene culture.

Roskilde Festival selects its stands based on these criteria:

- **Assortment:** We look for stands that can contribute with innovative, interesting food
- **Prices:** Even festivalgoers receiving the State Education grant will be able to fill their bellies with a quality meal.
- **Quality:** We would rather have food produced from scratch with fresh ingredients than semi-manufacture from wholesale.
- **Non-profit:** We prefer stands that use their profits for non-profit purposes like sport and cultural unions.
- **Originality:** We choose new stands that are different from the existing selection of stands.

FOOD AND BEVERAGES FOR PEOPLE WITH ALLERGIES

Each stand must post signs with the dishes on offer and declare the ingredients. If you e.g. are allergic or just generally interested, you can always ask the daily manager in the food stand to explain what ingredients the dishes contain. In East City, you can find Madkulturens Foodjam (an independent organisation under the Danish Ministry of Food, Agriculture and Fisheries), where festivalgoers can choose their own ingredients for a 100 per cent organic and homemade meal at 65 DKK.

ROSKILDE FOOD COURT

This year, the festival's Food Court consists of 29 exciting food stands and five bars offering a varied and different selection of food and beverages. The combination of the many different stands in Roskilde Food Court is intended to welcome new and exciting food stand talents to the festival and in that way change the perception festivalgoers, collaborators as well as ourselves have of festival food.

This year, we introduce more new food stands and again, some stands have moved from the barn and out into the two Food Courts in the Art Zone area. This means that you can find Roskilde Food Court in the barn next to Gloria as well as in Food Court South and North located around Ovalen (the Oval).
